

Наглов Виктор, Холоднов Вадим, Иванчук Вячеслав

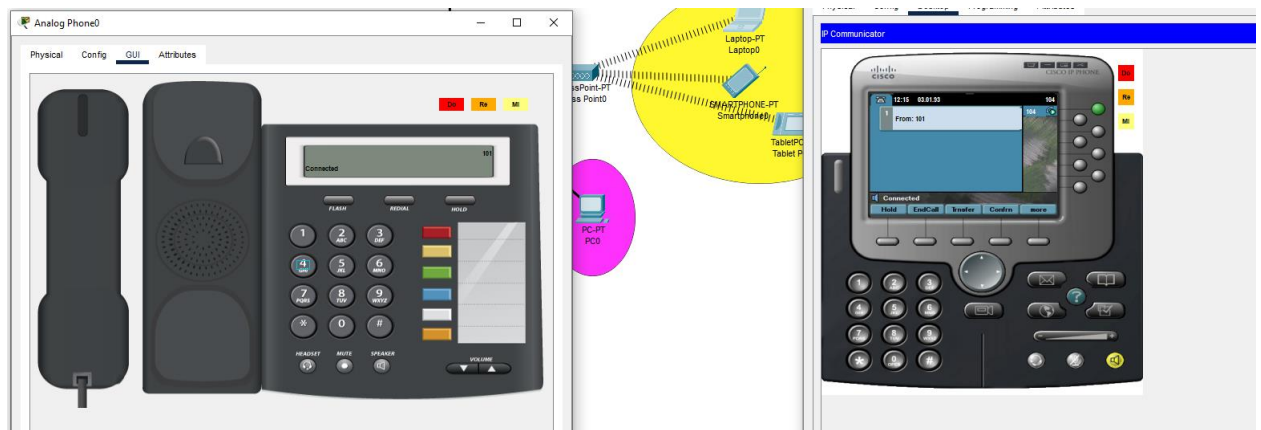

The diagram illustrates a network topology centered around a 2950-24 Switch0. The switch is connected to a 2811 Router0, an AccessPoint0, and an IP Phone0. Additionally, the switch connects to four distinct groups of devices, each represented by a colored oval:

- Green Oval:** Contains Home VoIP-PT (Home VoIP0) and Analog-Phone-PT (Analog Phone0).
- Red Oval:** Contains IP Phone0.
- Yellow Oval:** Contains Laptop-PT (Laptop0), SMARTPHONE-PT (Smartphone0), and TabletPC-PT (Tablet PC0).
- Pink Oval:** Contains PC-PT (PC0).

[illegible]

```
Router(config)#ephone 6
Router(config-ephone)#mac-address 00D0.BC23.EC5B
Router(config-ephone)#type CIPC
Router(config-ephone)#button 1:6
Router(config-ephone)#exit
Router(config)#
```

Проверим, можем ли позвонить с телефона с номером 101 в телефон 104 (например)

Как видим звонок идет.
