A screenshot of the WRT300N Wireless Router configuration page. The page is divided into two main sections: Internet Setup and Network Setup. The Internet Setup section shows the Internet Connection Type set to Automatic Configuration - DHCP. The Network Setup section shows the Router IP set to 192.168.0.1 and the Subnet Mask set to 255.255.255.0. The DHCP Server is enabled, and the Start IP Address is 192.168.0.100. The Maximum number of users is 50. The IP Address Range is 192.168.0.100 - 149. The Client Lease Time is 0 minutes. The Static DNS 1, 2, and 3 fields are empty. The WINS fields are also empty.

4.

A screenshot of the Wireless-N Notebook Adapter configuration page. The page has three tabs: Link Information, Connect, and Profiles. The Connect tab is active. Below the tabs, there is a list of available wireless networks. To the right of the list, there is a Site Information section with fields for Wireless Mode, Network Type, Radio Band, Security, and MAC Address. Below the Site Information section, there are Refresh and Connect buttons. On the right side of the page, there is a 2.4GHz logo and a picture of the adapter. At the bottom, there is a status bar that says "Adapter is Active".
